

Kerapoxy Cleaner

Special cleaning solution for epoxy grout

WHERE TO USE

Kerapoxy Cleaner is a detergent used to remove traces of epoxy grout such as **Kerapoxy**, **Kerapoxy P**, **Kerapoxy Design**, etc. from ceramic and glass mosaic coatings.

The main purpose is to facilitate the removal of spray residues after the final wash with water. It can also be used to remove any light surface haze that may remain once the grout has dried i.e. the next day.

Some application examples

- Removal of epoxy grout residues from the surface of ceramic and glass coatings.
- Cleaning of the tile/mosaic surface of grouted with **Kerapoxy**, **Kerapoxy**, **Kerapoxy P**, **Kerapoxy Design**, etc. after completion of grouting.

TECHNICAL CHARACTERISTICS

Kerapoxy Cleaner is a concentrated liquid detergent for epoxy grout. **Kerapoxy Cleaner** is used to remove residues, stains and marks of epoxy grout without giving off hazardous fumes.

If used correctly, **Kerapoxy Cleaner** does not damage either the tile/mosaic surface (check surface chemical resistance) or grouted joints.

RECOMMENDATIONS

- Do not use on polished marble or stone.
- Do not use on wood.
- Do not use on methacrylate pools.

- Before using **Kerapoxy Cleaner** on materials with an unknown surface resistance, test the product beforehand to make sure it does not damage the surface.
- Before using the product, protect all surfaces which could be damaged in direct contact with the product.
- Not suitable for removing heavy deposits of epoxy grout and for use with fully cured material. Use **MAPEI Pulicol 2000**.

APPLICATION PROCEDURE

Apply **Kerapoxy Cleaner** on the surface to be cleaned or on the traces of grout and leave standing for a few minutes. Then rub the surface with a Scotch-Brite® pad and rinse thoroughly with water. The product is particularly efficient on fresh grout. If cleaning is carried out a few hours after applying the grout, it may be necessary to leave it standing for longer (at least 15-20 minutes), or repeat the cycle.

PACKAGING

Kerapoxy Cleaner is available in 0.75 kg spray bottles and 5 kg canisters.

STORAGE

Kerapoxy Cleaner may be stored for up to 24 months in its original, sealed packaging in a cool place.

SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION

Kerapoxy Cleaner is not considered hazardous according to current standards and regulations regarding the classification of mixtures. It is however

Kerapoxy Cleaner

Spraying Kerapoxy Cleaner on the surface requiring cleaning

Cleaning with a Scotch-Brite® pad

Final rinsing with a sponge

TECHNICAL DATA (typical values)	
PRODUCT IDENTITY	
Consistency:	liquid
Colour:	transparent straw yellow
Density (g/cm³):	1.010
pH:	12.5
Storage:	24 months in its original sealed packaging
Hazard classification according to EC 1999/45:	none. Before using refer to the "Safety instructions for preparation and application" paragraph and the information on the packaging and Safety Data Sheet
Customs class:	3506 91 00
APPLICATION DATA (at +23°C and 50% R.H.)	
Application temperature range:	from +5°C to +35°C
Waiting time before rinsing:	from a few minutes with fresh grout, up to 4 hours for more difficult residues

recommended to use gloves, eyes protection and to take the usual precaution taken when handling chemical products are recommended. For further and complete information about a safe use of our product please refer to our latest version of the Material Safety Data Sheet.

PRODUCT FOR PROFESSIONAL USE.

WARNING

Although the technical details and recommendations contained in this product data sheet correspond to the best of our knowledge and experience, all the above information must, in every case, be taken as merely indicative and subject to confirmation

after long-term practical application: for this reason, anyone who intends to use the product must ensure beforehand that it is suitable for the envisaged application: in every case, the user alone is fully responsible for any consequences deriving from the use of the product.
